BY W. B. O. PEABODY. The moon is up! how calm and slow She wheels above the hill! The weary winds forcet to blow, And all the world lies still.

The way-worn travellers with delight, Her rising brightness see.
Revealing all the paths and plains.
And gilding ever, tree. It glistens where the hurrying stream

Its little rippling heaves ; It falls upon the forest-shade, And sparkles on the leaves. So once in Judah's evening hills

The heaventy lustre spread;
The Heaventy lustre spread;
And shepherds gazed with dread.

And still that light upon the world Its guiding splendor throws, Bright in the opening hours of life, And brighter at its close. The waining moon in time shall fail
To walk the midnight skies;
But God hath kindled this bright light

With fire that never dies.

None of your unkind reflections, as the old man said to the looking-glass. About thirty Bostonians, employed on the sugar plantations in Cuba, have just come home

on their annual visit. A young man without money among the ladies, is like the moon on a cloudy night—he can't shine.

A man advertises for a "competent person to undertake the sale of a new medicine," and adds that "it will be profitable to the undertaker." Like provisions, dresses are now coming down. The sign before the door of a mantuama-

her's shop reads thus : "Dresses made lower than The Commissioners appointed by Governor Wise to select a site for a new lunatic Asylum in Virginia, have decided upon Weston, in Lewconcurred in the report which they have already forwarded to Richmond.

On Saturday night last thirteen slaves ran away from their owners in Loudon county, V. They all started off in company. Seven of the thirteen have been captured in the mountains in Washington county, Md.

The tombstone of a sweet glil, blind from her birth, bears the appropriate inscription-· There is no night t e e." The tombstone of a child, who died at the age of three years, has inscribed upon it the befitting words." Went in the morning."

The Spring season in Virginia has opened earlier than usual. There are about 2:0 visitors at the Greenbrier White Sulphur, 30 at the Montgomery White, 250 at Old Point, 150 at the Healing in Bath county, 25 at the Alleghany, 15 at the Yellow Sulphur, and a goodly company at the Old Sweet.

DREMIUM LIGHTNING-ROD POINTS. The attention of the public is respectfully solicited

The attention of the public is respectfully solicited to the examination and patronage of a superior article of LIGHTNING CONDUCTORS, manufactured and erected by Labarre & Owen, corner of 10th and C sts., Washington, D. C.

The superiority of these Conductors over many others now in use, will readily be acknowledged on examination. They are manufactured of a select quality of iron, connected with copper couplings, and theroughly carbonized to obviate the action of the atmosphere on the metal, and mounted with a superb copper point fire gilt and tipt with pleting. superb copper point fire guit and tipt with plating, which renders them strictly scientific. All points not tipt with plating will corrods, when they lose their attractive power for electricity, in which condition they are worthless.

DYSPEPSIA. Affections of the Liver, Dropsy, Neuralgia, Bronchitis and Consumptive Tendencies, Disordered State of the Blood, Boils, Scurvy, The Prostrating Effects of Lead or Mercury, General Debility, And all diseases which require a Tonic and Altera

The proofs of its efficacy are so numerous, so well authenticated, and of such peculiar character, that sufferers cannot reasonably hesitate to receive the proffered aid.

The Peruvian Syrup does not profess to be a cure all, but its range is extensive, because many diseases, apparently unlike are intimately related, and proceeding from one cause, may be cured by one remedy. The class of diseases for which the Syrup provides a cure, is precisely that which thas so often baffled the highest order of medical skil. The facts are tangible, the witnesses accessible, and the safety and efficacy of the Syrup incontrovertible.

Those who may wish for an opinion from disinterested persons respecting the character of the Syrup cannot fail to be satisfied with the following among numerous testimonials in the hands of the Agents. numerous testimonials in the hands of the Agents.
The signatures are those of gentlemen well known in the community, and of the highest respectability.

CARD. The undersigned having experienced the beneficial effects of the "Peruvian Syrup," do not hesitate to recommend it to the attention of the public. From our own experience, as well as from the testimony of others, whose intelligence and integrity are aftogether unquestionable, we have no doubt of its efficacy in cases of Incipient Diseases of the Lungs and Bronchial Passages, Dyspepsia, Liver Complaint, Dropsy, Neuralgia, &c. Indeed its effects would be incredible, but from the high character of those who have witnessed them, and have volunteered their testimony, as we do ours, to its restorative power. restorative power.

Rev. JOHN PIERPONT, THOMAS A. DEXTER, S.H. KENDALL, M. D. SAMUEL MAY, THOMAS C. AMORY, PETER HARVEY, JAMES C. DUNN,

It is well known that the medicinal effect of Protoxide of Iron is lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been ide of Iron, without further oxidation, has been deemed impossible.

In the Peruvian Syrup, this desirable point is attained by combination in a way before unknown; and this solution may replace all the protocarbomatos citrates, and tartrates of the Materia Medica.

Cathartic Pills. The sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most per-fect purgative which is known to man. Innumerable proofs are shown that these PILLs have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take and powerful to cure. Their pene trating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humours which bread distancer, stimulate the foul humours which breed distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of every body, but also formidable and dangerous diseases which have baffled human skill. While they produce powerful effects they areat the while they produce powerful effects they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and being purely vegetable, are free from any risk of harm. Dr. Wood: Dear Sir—Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States, it was a lidy becoming gray, but upon the application of your Hair Restorative, it soon recovered its original hue. I consider your resto ative as a very wonderful invention, quite efficacious as well as agreeable.

I am, dear sir, yours truly. S. THALBERG.

PROF. Wood: About two years sgo my hair com menced falling of and turning gray. I was fast becoming bald, and had tried many remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my bair firmly. It began to fit up, grow out, and turned back to its former color, (black) At this time it is fully restored to its original color, health and appearance, and I cheerfully recommend its use to all.

PETERSBURG, October 21, 1854. About five years ago, I obtained from Mr. Tobias, in Washington, a pair of Glasses for the spectacles which I used, and found them of great assistance to my decaying vision; and my opinion of him is, that he is skillful in the preparation of Glasses for eyes not too far gone to be benefitted by such aid.

Lynchaure, November 7, 1854.
From an examination of Mr. Tobias' Glasses, and from his observations and remarks, am convinced that he is a skillful optician. Lynchburg, November 10, 1854. Mr. John Tobias, having furnished me with Glasses, by which I have been greatly aided, (my vision

having suffered greatly from reading at night in my sarlier life,) it alfords me the highest pleasure to say that I consider him a skillful practical optician, and well prepared to aid those who may need his professional services.

WM. B. ROUZIE,

Elder of the Methodist Conference. WILMINGTON, N. C., June 27, 1854.
MR. J. Tobias - Dear Sir: I am happy to say that the Spectacles which I obtained from you last week are entirely satisfactory. From an inequality in the visual range of my eyes, I have heretofore found great difficulty in getting glasses of the proper focal distances. It affords me pleasure to state, that by the aid of your optometer this difficulty has been happily obviated, so that the Glasses you furnished me are decidedly the best adapted to my eyes of any I have ever yet used.

Having been induced by a friend to visit the establishment of Mr. Tobias for the purpose of trying his glasses I was furnished with a pair slightly colored blue, whice have afforded me more relief and gratification than any I have ever tried. I was recommended to Mr. John Tobias as a skilful optician; and as I have eyes of remarkable peculiarity, I was gratified to find that Mr. Tobias seemed to comprehend them by inspection and some sight measurement, and he has made me a pair of Spectacles that suits me admirably. WASHINSTON, Aug. 8, 1857.

Having been for years under the necessity of havtwo sets of glasses—one for use in daylight, and one for lamp-light—I procured one set from Mr. Tobias which answered both purposes. I have used his for several months, and find them excellent.

EDWARD STUBBS.

Of Department of State.

Mr. J. Tobias. Sir: The pair of Spectacles you furnished me yesterday are particularly satisfactory to me. They are very decidedly the best I possess, and I am the owner of eight or nine pairs, carefully released in different places, and from aces and from opticians recommended to me on account of their professional standing in France, England, and the United States, I have been also pleased with your remarks and directions on the treatment of the eyez, for the purpose of preserving and improving the sight.

Respectfully yours, CHS. CALDWELL,

BROOKLYN ORTHOPARDIC INSTITUTION, After most careful examination of Mr. J. Tobias's Glasses, I am enabled to testify that their hardness clearness, polishing, and exact optical shape render them particularly recommendable to those whose merely optical impairment of the eyes are in want of such auxiliaries. I consider, moreover, Mr. Tobias fully qualified to determine the focus of the eye, both by his optical knowledge and experience, and by means of his optometer. In addition, I can further state that Mr. Tobias has supplied some of my patients with Glasses, to their and my satisfaction.

LEWIS BAUER, M. D..

Physician and Surgeon, Berlin; Member of the Royal College of Surgeons, England; Member of the Pathological Society of London, and of the Pathological Society of New York; late Surgeon of the Royal Orthopaedic Institution of Manchester, England, and Surgeon of the B. O. Institution.

In the experience of even two years, I have found great difficulty in obtaining Speciacles that were exactly adapted to the weakness of my sight. This inconvenience Mr. Tobias seems to have removed for the present by the substitution for me of better and more suitable Glasses. They are clear, chrystal-like and comfortable to my eyes. I would commend him to those who from age or other infirmity require artificial aid in this way.

J.J. SIMKINS, M. D. WILMINGTON, N. C., June 16, 1854.

To persons who have had the sight of their eyes as impaired as to require the use of Glasses, I would recommend Mr. John Tobias as a suitable person from whom to obtain such Glasses as they may require, as he has suited me with a pair of Spectacles for a far and near sight. My sight has been impaired very much by a service of years in the Post Office Department, which berth required me to be on duty from 11 o'clock at night till after day, during which time I used but one light.

DEPARTMENT OF INTERIOR, May 8, 1355.

From natural defects and the unequal range of my eyes. I have been compelled to use glasses for several years. I have tried different opticians without obtaining glasses perfectly fitted to my eyes. Four months since Mr. Tobias made two pairs especially for me, which I have found to serve me perfectly. By the use of his optometer he is enabled to adapt glasses most minutely to the eye. I most cheerfully recommend Mr. Tobias to all having occasion to use glasses, and bear my testimony as to his skill as an opticials.
